

## ActivCool Longlife 30% Anti-Freeze Radiator Coolant

### Technical Data Sheet

#### Product Description

Rolcer ActivCool Longlife 30% is a ready to use high-quality long life radiator coolant formulated with ethylene glycol, specially developed chemical additives and de-ionized water for providing effective cooling solution for automotive applications. It provides superior engine protection against temperature extremes.

Rolcer ActivCool Longlife 30% may be used in all seasons in the radiators of cars, medium duty trucks, LCV's, tractors and earth movers.

#### Features/Benefits

- Imparts excellent corrosion protection to all cooling system metals and alloys used in internal combustion engines
- Efficient lubrication of water pumps
- Compatible with seal and hose materials used in engine cooling systems
- Minimizes gel forming tendency in cooling systems
- Protection against freezing, overheating and cavitation in engine cooling systems

#### Typical Properties

Test Parameters	ASTM Method	Typical Values
Colour	Visual	Green
pH value, 30% v/v in distilled water	D1287	8.2
Density @ 15 <sup>o</sup> C, kg/cu m	D1122	1.031
Boiling Point, <sup>o</sup> C	D1120	104
Freezing Point, 30% v/v, <sup>o</sup> C	D1177	-20

Properties mentioned above are typical only, and minor variations which do not affect the product performances, are to be expected in normal manufacturing.
