

ActivCool Longlife 50% Anti-Freeze Radiator Coolant

Technical Data Sheet

Product Description

Rolcer ActivCool Longlife 50% is a ready to use high performance premium quality radiator coolant formulated with ethylene glycol and specially developed chemical additives for providing effective cooling & antifreeze solution for automotive applications. It provides superior engine protection against temperature extremes.

Rolcer ActivCool Longlife 50% is environment friendly as it is free from Borates, Nitrites, Silicates, Phosphates and Amines. It is recommended for all types of radiators used in passenger cars, light & heavy-duty commercial vehicles, mixed fleet, off-road construction and mining equipment.

Performance Specification

Rolcer ActivCool Longlife 50% meets the following performance specifications:

- British Standard BS 6580:2010
- ASTM D 3306

Features/Benefits

- Imparts excellent corrosion protection to all cooling system metals and alloys used in internal combustion engines
- Efficient lubrication of water pumps
- Compatible with seal and hose materials used in engine cooling systems
- Minimizes gel forming tendency in cooling systems

Typical Properties

Test Parameters	ASTM Method	Typical Values
Colour	Visual	Green
pH value, 50% v/v in distilled water	D1287	8.5
Density @ 15 ^o C, kg/cu m	D1122	1.06
Boiling Point, ^o C	D1120	120
Freezing Point, 50% v/v, ^o C	D1177	-37
Reserve Alkalinity, max	D1121	1.70
Corrosion Test	D1384	Pass

Properties mentioned above are typical only, and minor variations which do not affect the product performances, are to be expected in normal manufacturing.
